

WE DO THE PAPERWORK YOU DO THE SCIENCE!

Scientific Network Management S.L. is a privately owned company created in 2013, which focuses on the writing and the management of scientific research projects. Our area of expertise is life sciences, systems biology, bioinformatics, and we can provide technical support in other domains.

As managing partner within a consortium, SNM provides a fully reliable management service with a very competitive budget compared to hiring a specific manager by the coordinator. We provide expertise, flexible personnel and can save costs by adjusting our contribution to the exact need of the project.
